SPEEDCOPY- Customer

1. CUSTOMER ACCESS, ACCOUNT & PRIVACY

1.1 Authentication & Session

Screen / Module	Purpose & Content / Widgets	User Actions	Backend Connections	Next Flow	UX / Compliance Notes
Login / Signup	Secure access to SpeedCopy	- Mobile / Email input - OTP or password	User DB, Auth Service, Session DB	Home	Role resolved server-side; vendor context never loaded
OTP Verification	Verify identity	- Enter OTP	Auth Service	Profile Setup	Rate-limited; expiry enforced
Session Initialization	Create customer context	(No UI)	Session Service	Home	Session token contains no vendor data

1.2 Profile, Privacy & Account Control

Screen / Module	Purpose	User Actions	Backend	Next Flow	Compliance Notes
Profile Overview	Manage account	- Edit name - Manage addresses - Wallet - Referrals	User DB	Related screens	No vendor fields in schema
Notification Preferences	Control communications	- Toggle Push / WhatsApp - Set quiet hours	Notification Pref DB	Profile	Critical alerts non-disableable
Data Export Request	Transparency	- Request personal data	Export Service	Email	Secure, time-bound
Account Deletion	Exit platform	- Request deletion	User Service	Confirmation	Blocked if active orders

CUSTOMER LIFECYCLE (FINAL & LOCKED)
→ Access & Account
→ Discovery
→ Product Selection
→ Upload & Customization
→ Address & Delivery Mode
→ Checkout & Payment
→ Order Edit Window
→ Production & Tracking
→ Delivery & Confirmation
→ Feedback & Closure
→ Wallet / Referrals / Reorder
→ Support / Retention / Exit

Platform: Android + iOS + Web
Visibility Rule: Customer interacts only with SpeedCopy
Vendor Rule: Vendors, stores, staff, delivery partners are never visible

2. HOME, DISCOVERY & SEARCH

2.1 SpeedCopy Home

Screen	Purpose & Widgets	User Actions	Backend	Next Flow	UX Rules
Home	Entry hub	- Category tiles (Printing, Gifts, Stationery) - Search bar - Banners - Active offers - Recent orders	Catalog Service, Offer Service, Order Service	Category / Orders	Text-first, large tap zones
Search	Discover products	- Keyword search	Search Service	Product List	Typo-tolerant

3. CATALOG & PRODUCT SELECTION

3.1 Category → Product Flow

Screen	Purpose	User Actions	Backend	Next Flow	Rules
Category Listing	Browse services	- Select category	Category DB	Sub-Category	SpeedCopy categories only
Sub-Category	Narrow choice	- Select type	Catalog DB	Product List	City-filtered
Product List	Compare options	- View MRP & price - Select product	Pricing Service	Product Detail	MRP strike mandatory

3.2 Product Detail Page (PDP)

Screen	Purpose & Widgets	User Actions	Backend	Next Flow	UX Rules
Product Detail	Explain offering	- View specs - Delivery promise - CTA "Customize & Print"	Product DB, SLA Engine	Upload	"Delivered by SpeedCopy" only
Quantity-Based Pricing	Show price slabs	- Increase/decrease quantity - View price update	Pricing Engine, Product DB	Upload / Cart	Slabs defined by SpeedCopy; vendor cost hidden
Delivery Speed Selector	Choose timeline	- Select Quick / Standard	SLA Engine	Upload	Availability city-based

Backend Notes
Price slabs:
1–10, 11–50, 51–100, 100+
Price locks at checkout snapshot

UI/UX Notes
Inline price update
Show "You save more at higher quantity"
"Delivered today"
"Delivered tomorrow"
Disabled if SLA unsafe

4. FILE UPLOAD & CUSTOMIZATION

4.1 Upload, Editor & Approval

Screen	Purpose	User Actions	Backend	Next Flow	Critical Rules
Upload	Add design	- Upload file	File Service	Editor	Large file support
Editor	Adjust design	- Crop / Rotate / Zoom	Editor Service	Preview Lock	DPI validation mandatory
Preview Lock	Final approval	- Approve design	Order Service	Cart	Locked after approval
Canvas Editor	Design from scratch	- Add text/images - Resize canvas	Canvas Service	Preview Lock	Auto DPI validation

UI/UX Notes
Layer-based editor
Mobile-friendly, simplified tools

5. ADDRESS, DELIVERY MODE & COVERAGE

5.1 Address Management

Screen	Purpose	User Actions	Backend	Next Flow	Rules
Address List	Manage addresses	- Add / Edit / Delete	Address DB, Location Service	Checkout	City & pincode validated
Add/Edit Address	Capture details	- Name, phone, address	Address DB	Address List	Mandatory before checkout

5.2 Delivery Mode Selection

Screen	Purpose	User Actions	Backend	Next Flow	Rules
Delivery Mode	Choose fulfilment	- Home Delivery - Self Pickup (if enabled)	SLA Engine, Hub Service	Checkout	Pickup shown only if SpeedCopy enables
Unsupported Location	Handle gaps	(Message shown)	Location Service	City Change	Never mention vendor limits
Distance-Based Delivery Log	Calculate delivery feasibility	(No UI)	Geo Service, Vendor Location DB, SLA Engine	Checkout	Distance used internally only

Important clarification
Customer does NOT see vendor location.
System uses distance internally to decide SLA & delivery charge.

Admin/Staff Control
Admin assigns delivery range per vendor/store
Customer sees only:
"Fast delivery"
"Standard delivery"

6. CART, CHECKOUT & PAYMENT

6.1 Checkout Flow

Screen	Purpose	User Actions	Backend	Next Flow	Rules
Cart	Review order	- Confirm details	Pricing Service	Checkout	Price snapshot
Checkout	Final confirmation	- Select address - Apply coupon	Coupon Engine	Payment	Vendor not assigned yet
Payment	Pay SpeedCopy	- Complete payment	Payment Gateway	Order Confirmed	No COD

6.2 Order Edit Window (Before Production)

Screen	Purpose	User Actions	Backend	Next Flow	Rules
Order Edit Banner	Allow corrections	- Edit address - Cancel order	Order Service	Order Detail	Only before IN_PRODUCTION
Edit Lock Notice	Prevent misuse	(View only)	Order Service	—	Clear lock message

7. ORDER TRACKING, PRODUCTION & SLA

7.1 Order Tracking (Customer View)

Screen	Purpose	User Actions	Backend	Next Flow	Messaging Rules
Order List	View all orders	- Open order	Order Service	Order Detail	Clear status labels
Order Detail	Track progress	- View timeline - Download invoice	Order Service	Support	"Processing by SpeedCopy"

7.2 Clarification Loop (If Needed)

Screen	Purpose	User Actions	Backend	Next Flow	Rules
Clarification Required	Request input	- Re-upload / Confirm	Order Service	Production	SLA timer active
User Action Pending	Await response	- Take action	Order Service	Resume flow	Timeout escalates
Auto Vendor Assignment	Assign best vendor	(No UI)	Routing Engine, Vendor DB	Production	Based on city, capacity, SLA

Assignment Criteria
City match <- Available capacity -> Rejection history
-> Distance to delivery hub <-Customer never sees this.

8. DELIVERY, CONFIRMATION & DISPUTES

8.1 Delivery & Proof

Screen	Purpose	User Actions	Backend	Next Flow	Rules
Out for Delivery	Inform customer	- Track	Delivery Service	Delivered	No delivery partner identity
Delivered Confirmation	Close loop	- View confirmation	Order Service	Feedback	Proof stored internally
Report Delivery Issue	Raise dispute	- Report issue	Ticket Service	Support	Time-bound window
Delivery Tracking (3rd Party)	Track shipment	- View live status	Delivery Aggregator Service	Delivered	Partner name hidden
Live Delivery Map	Visual tracking	- View map	Maps SDK, Delivery Service	Delivered	Approximate location only

Backend Notes
Aggregator chooses: Rapido / Porter / Dtc
Based on:
Distance
Weight
SLA urgency

UI/UX Notes
Map view allowed
No rider/company branding shown

9. FEEDBACK, WALLET & REFERRALS

9.1 Order Feedback (SpeedCopy-Level)

Screen	Purpose	User Actions	Backend	Next Flow	Rules

Feedback Prompt	Capture experience	- Rate order - Comment	Feedback DB	Order History	No vendor rating

9.2 Wallet & Ledger

Screen	Purpose	User Actions	Backend	Next Flow	Rules
Wallet	View balance	- View ledger	Wallet Service	Ledger	Immutable
Ledger	Transaction history	- View entries	Ledger DB	—	Append-only

9.3 Referrals

Screen	Purpose	User Actions	Backend	Next Flow	Rules
Referral Dashboard	Earn rewards	- Copy link - Track rewards	Referral Service	Wallet	Paid post-delivery

10. REORDER, RETENTION & EXIT

10.1 Reorder & Saved Designs

Screen	Purpose	User Actions	Backend	Next Flow	Rules
Reorder CTA	Repeat order	- Reorder	Order Service	Checkout	Uses last approved design
Saved Designs	Reuse files	- Select design	File Service	Editor	User-owned only

10.2 Inactivity & Retention

Scenario	System Action
No order for X days	Personalized coupon
Abandoned checkout	Reminder notification
Failed order	Service recovery offer

11. SUPPORT & ESCALATION

11.1 Support Flow

Screen	Purpose	User Actions	Backend	Next Flow	Rules
Raise Ticket	Get help	- Select issue - Attach files	Ticket Service	Ticket Timeline	No vendor contact
Ticket Timeline	Track resolution	- View replies	Ticket DB	—	SLA visible

12. CUSTOMER FAILURE STATES (SEALED)

Scenario	Customer Sees	System Action
Vendor rejection	"Reassigning your order"	Internal reassignment
Delay	"Order under review"	SLA escalation
Refund	"Refund initiated by SpeedCopy"	Wallet / bank refund
Cancellation	"Order cancelled by SpeedCopy"	Ledger update

QA must validate zero vendor leakage across:

- Product APIs
- PDP payloads
- Search results
- Cache/CDN responses
